

# Recorded Future Packages & Licensing

Document Version: 1.0 (Updated: 13 April, 2026)

## Package Descriptions

Package	Service Description	Primary Licensing Metrics	Included Capabilities*
<b>Cyber Operations</b>	A suite of capabilities that enables security teams to anticipate, prevent, and disrupt cyber threats.	<ul style="list-style-type: none"> <li>• Workforce Tier</li> <li>• Named Users</li> </ul>	<ul style="list-style-type: none"> <li>• SecOps Intelligence</li> <li>• Threat Intelligence</li> <li>• Vulnerability Intelligence</li> <li>• Malware Intelligence</li> </ul>
<b>Digital Risk Protection</b>	A suite of capabilities to identify and mitigate brand and workforce related threats beyond the organization's security perimeter.	<ul style="list-style-type: none"> <li>• Workforce Tier</li> <li>• Named Users</li> </ul>	<ul style="list-style-type: none"> <li>• Brand Intelligence</li> <li>• Identity Intelligence</li> </ul>
<b>Third-Party Risk</b>	A suite of capabilities to identify, assess, and manage third-party cyber risk across the vendor lifecycle.	<ul style="list-style-type: none"> <li>• Monitored Organizations</li> </ul>	<ul style="list-style-type: none"> <li>• Third-Party Intelligence</li> <li>• Risk-Recon Advisor</li> </ul>
<b>Core</b>	A suite of capabilities covering foundational use cases across Cyber Operations & Digital Risk Protection solutions.	<ul style="list-style-type: none"> <li>• Workforce Tier</li> <li>• Named Users</li> </ul>	<ul style="list-style-type: none"> <li>• SecOps Intelligence</li> <li>• Threat Intelligence</li> <li>• Vulnerability Intelligence</li> <li>• Malware Intelligence</li> <li>• Brand Intelligence</li> <li>• Identity Intelligence</li> </ul>
<b>Professional</b>	A suite of capabilities covering expanded intelligence and automations across Cyber Operations & Digital Risk Protection solutions.	<ul style="list-style-type: none"> <li>• Workforce Tier</li> </ul>	<ul style="list-style-type: none"> <li>• SecOps Intelligence</li> <li>• Threat Intelligence</li> <li>• Vulnerability Intelligence</li> <li>• Malware Intelligence</li> <li>• Brand Intelligence</li> <li>• Identity Intelligence</li> <li>• Attack Surface Intelligence</li> <li>• Autonomous Threat Operations</li> </ul>
<b>Elite</b>	A suite of capabilities covering comprehensive use cases across Cyber Operations, Digital Risk Protection & Third-Party Risk	<ul style="list-style-type: none"> <li>• Workforce Tier</li> </ul>	<ul style="list-style-type: none"> <li>• SecOps Intelligence</li> <li>• Threat Intelligence</li> <li>• Vulnerability Intelligence</li> <li>• Malware Intelligence</li> <li>• Brand Intelligence</li> <li>• Identity Intelligence</li> <li>• Autonomous Threat Operations</li> <li>• Attack Surface Intelligence</li> <li>• Third-Party Intelligence</li> <li>• Risk-Recon Advisor</li> </ul>

## Standalone & Add-On Products

Product	Service Description	Primary Metrics	Purchase Options
<b>Attack Surface Intelligence</b>  (Included in Pro & Elite Packages)	Intelligence Capability to discover unknown assets and prioritize exposures based on exploitability and active threat context.	<ul style="list-style-type: none"> <li>Scanned Assets</li> </ul>	<ul style="list-style-type: none"> <li>Standalone purchase</li> <li>Add-on to:               <ul style="list-style-type: none"> <li>Cyber Operations</li> <li>Digital Risk Protection</li> <li>Third-Party Risk</li> <li>Core</li> </ul> </li> </ul>
<b>Autonomous Threat Operations</b>  (Included in Pro & Elite Packages)	Advanced capability to hunt, detect and respond to cyber threats autonomously.	<ul style="list-style-type: none"> <li>Flat-Fee Per Org</li> </ul>	<ul style="list-style-type: none"> <li>Add-on to:               <ul style="list-style-type: none"> <li>Cyber Operations</li> <li>Core</li> </ul> </li> </ul>
<b>External Identity</b>	Intelligence capability to monitor credentials external to your organization.	<ul style="list-style-type: none"> <li>External Identities Tier</li> </ul>	<ul style="list-style-type: none"> <li>Add-on to:               <ul style="list-style-type: none"> <li>Cyber Operations</li> <li>Digital Risk Protection</li> <li>Third-Party Risk</li> <li>Core</li> <li>Professional</li> <li>Elite</li> </ul> </li> </ul>
<b>Geopolitical Intelligence</b>	Intelligence capability to monitor geopolitical events, physical threats, and country-level risk.	<ul style="list-style-type: none"> <li>Flat-Fee Per Org</li> <li>Named Users</li> </ul>	<ul style="list-style-type: none"> <li>Standalone purchase</li> <li>Add-on to:               <ul style="list-style-type: none"> <li>Cyber Operations</li> <li>Digital Risk Protection</li> <li>Third-Party Risk</li> <li>Core</li> <li>Professional</li> <li>Elite</li> </ul> </li> </ul>
<b>Enterprise Sandbox</b>	Triage-based sandbox to detonate malware, while keeping data internal to your enterprise.	<ul style="list-style-type: none"> <li>Malware Analyses per day</li> </ul>	<ul style="list-style-type: none"> <li>Standalone purchase</li> <li>Add-on to:               <ul style="list-style-type: none"> <li>Cyber Operations</li> <li>Digital Risk Protection</li> <li>Third-Party Risk</li> <li>Core</li> <li>Professional</li> <li>Elite</li> </ul> </li> </ul>

## Licensing Definitions

Metric	Description
Named User	<ul style="list-style-type: none"><li>Number of individuals who are authorized to access the Recorded Future Platform for purchased capabilities.</li></ul>
Workforce Tier	<ul style="list-style-type: none"><li>The number of unique workforce credentials associated with the customer's organization and its affiliates.</li></ul>
Scanned Assets	<ul style="list-style-type: none"><li>The number of an organization's unique hostname or IP addresses included in an Attack Surface Intelligence project and scanned within the Attack Surface Intelligence capability.</li></ul>
External Identities	<ul style="list-style-type: none"><li>The number of external credentials monitored by the customer's organization and its affiliates.</li><li>External Identities refer to credentials not issued under Customer-owned domains but associated with an external-facing product or offering which is accessed by users outside the organization</li></ul>
Monitored Organizations	<ul style="list-style-type: none"><li>The maximum number of unique organizations tracked and monitored within the Third-Party Risk solution within the Recorded Future Platform</li></ul>
API Calls	<ul style="list-style-type: none"><li>The maximum number of daily API Calls to the licensed APIs as listed on: <a href="https://www.recordedfuture.com/integrations/details">https://www.recordedfuture.com/integrations/details</a></li></ul>

## Licensing Terms

### Measurement

- All metrics are measured based on maximum usage unless otherwise specified.
- All metrics are licensed by "Tier" by default, which refers to a pre-determined usage band that establishes the pricing and maximum quantity of a given licensing metric.

### Affiliates

- "Affiliate" means any entity that directly or indirectly controls, is controlled by, or is under common control with Customer.
- Includes entities whose assets, domains, or credentials are monitored within the Platform

### Overuse

- Customers may not exceed licensed quantities. Additional usage may require purchase of additional capacity.
- API utilization is measured on a rolling 30-day average basis. For example, with a quota of 10,000 API Calls/day, the average number of Calls on a rolling 30-day basis cannot exceed 10,000. Rate limits may be enforced within certain APIs according to technical documentation provided.

### Additional Limitations & Terms:

- Brand Intelligence capability is limited to (each from customer's organization) a maximum of 250 Customer executives, 5 Customer logos for machine-learning curation and 5 Customer organizations for impersonation monitoring.
- The Third-Party Intelligence capability Includes unlimited organization entity lookups via user interface.
- When licensing by Workforce Tier, the maximum number of monitored internal credentials within the Workforce identity Intelligence capability will equal the Workforce Tier.
- When licensing by Workforce Tier, there are no limits on the number of users who can access the Recorded Future Platform for purchased capabilities.
- When multiple packages or products are purchased, the highest applicable daily API Call limit among the purchased offerings shall apply.
- All packages also include Intelligence platform capabilities covering the Intelligence Graph, Recorded Future AI, access to all compatible integrations, APIs and collective insights.

Recorded Future is the world's largest threat intelligence company. Recorded Future's Intelligence Cloud provides end-to-end intelligence across adversaries, infrastructure, and targets. Indexing the internet across the open web, dark web, and technical sources, Recorded Future provides real-time visibility into an expanding attack surface and threat landscape, empowering clients to act with speed and confidence to reduce risk and securely drive business forward. Headquartered in Boston with offices and employees around the world, Recorded Future works with over 1,900 businesses and government organizations across more than 80 countries to provide real-time, unbiased, and actionable intelligence.
